INFOTAINMENT

Standardized HQ science or philosophy post: short, deep facts/info from 3 intersecting sources (stands out because no one sources anything), then asks a question to the audience. Then we ask a question to the audience, and will write a response in the next edition.

In the next edition's response we will ask another question, and there will be a meter for X number of responses needed for us to write another response. This way we can keep the conversations going that our users find interesting and can abandon the ones that only appeal to a few people.

Are you missing John Plant's Primitive Technology Videos? We are too. It kinda seems like he made all of the primitive tech there was. John's Youtube channel has racked up 10.8M followers and more than 830 million views since his first upload in 2015, *Wattle and Daub Hut*. It looks like he took some time off to write a book. I guess he drinks a lot of coffee?

In the meantime we found this for you:

WOW KNOWLEDGE IS POWER

A CREATURE'S BRAIN SIZE IS NOT CORRELATED WITH ITS INTELLIGENCE (OTHERWISE WHALES WOULD FUR SHUR RULE THE WORLD) BUT RATHER ITS BRAIN TO BODY RATIO. THIS IS WHY IT IS SPECULATED THAT DINOSAURS WERE VERY, VERY DUMB.

Sagan, Carl. *The Dragons of Eden: Speculations on the Evolution of Human Intelligence*. Random House Publishing Group, 1986

QUARTERLY EXISTENTIAL CRISIS:

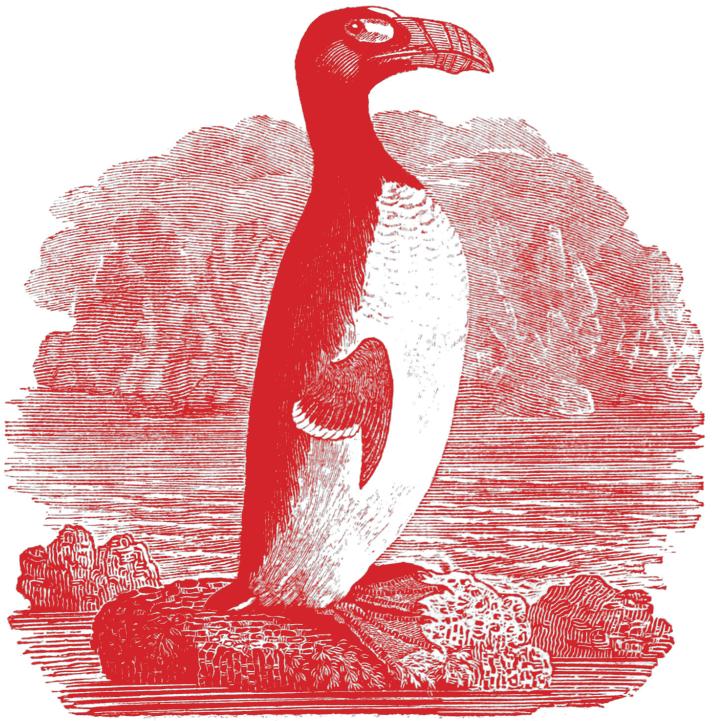

What stands in the way of people taking responsibility for their own lives is lack of consciousness or self awareness, and in the way of consciousness and awareness is trauma.

Gabor Mate on responsibility:

DID YOU KNOW THAT IN 2007 SCIENTISTS DISCOVERED THAT THE NERVE ENDINGS THAT CONNECT TO THE CLITOROUS WRAPS ALL THE WAY AROUND A WOMAN'S PELVIS WHICH IS PROBABLY WHY THEIR ORGASMS SEEM 12903784 TIMES MORE INTENSE THAN A MAN'S. THAT AND THE CLIT (V SMOL) HAS ~8,000 NERVE ENDINGS VS A PENIS (NOT SMOL) WHICH ONLY HAS ~4000.

GREAT AUK

11lbs
33in tall
Lay one egg on the rocks
mate for life
flightless
not closely related to penguins
extinct in mid 19th century

foraging in the waters of the North Atlantic, ranging as far south as northern Spain and along the coastlines of Canada, Greenland, Iceland, the Faroe Islands, Norway, Ireland, and Great Britain. The great auk was an important part of many Native American cultures, both as a food source and as a symbolic item.

WRITING

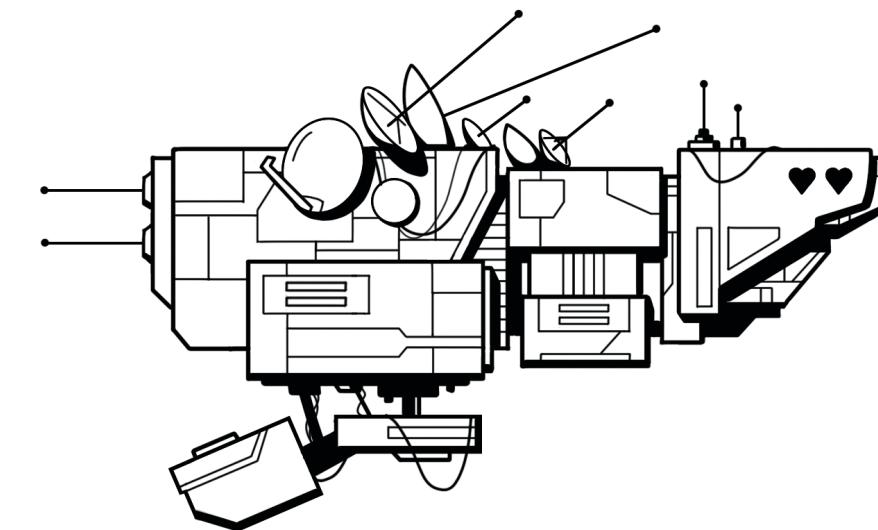

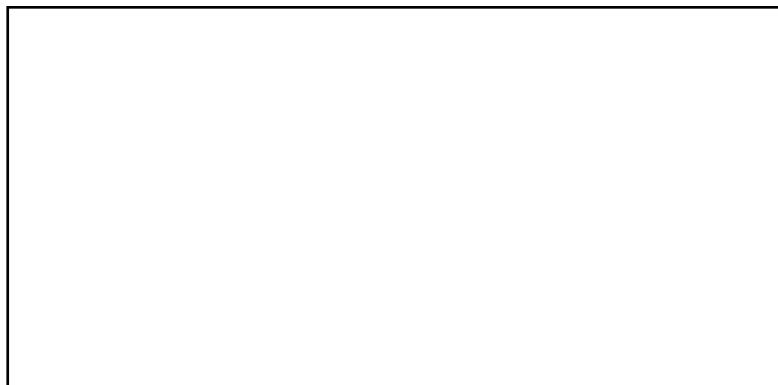

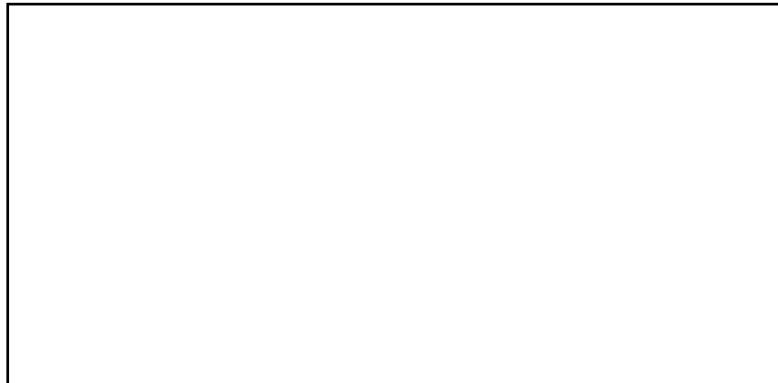

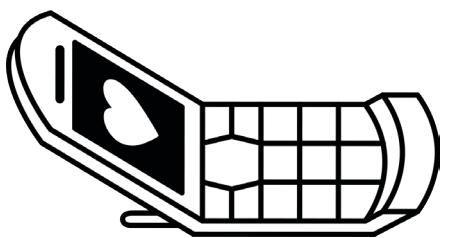

ROBIN WRIGHT PENN has spent the past decade choosing family over work, while channeling a succession of fraught, doomed wives and mothers in film after film. Now she's sitting on the world's greatest untapped reserve of leading-lady star power. And something has got to give.

DOA / from the editor

Hello Rachel,

It was a pleasure seeing you again at our open house the other week! You're always the first person I think of when I am out networking and building relationships. Please let me know if I can ever be of assistance to you or anyone you know!

See you soon!

Diane
